In presenting the annual Report of the expenditures in maintaining the county poor, we would briefly say—for two years past the number of county paupers have largely increased, the changing of the law in regard to gaining town settlements having thrown nearly all the town paupers upon the county, thus while largely increasing the expenses of the county, in due proportion decreasing the expenses of the several towns. We have now about two hundred county paupers beside those supported at the farm, most of them being supported as cheap, and in many instances cheaper than they could be at the farm. Many of them receive but little if any help except in cases of sickness. The health of that class of people is generally poor thus making the physicians bills throughout the county large.

The county buildings are now in good repair and condition, having been painted the past summer, nearly two hundred dollars have been expended within the year for improvements by the agent, which has been charged in the pauper account of the farm.

It will be seen by the report of the Treasurer for the past year and also in his forth coming report that the Court expenses for two years past have been unusually large, and that for several years past the appropriations have fallen far short of the current expenses, and we would recommend to the county convention when next assembled, to increase the amount that enough may at least be appropriated to meet current expenses, and the yearly interest of the debt.

We consider that the county has been fortunate for several years past in securing the services of able and kind farm superintendents, and in securing for the coming year the services of the present able agent, W. S. Woodman Esq., and his excellent wife.

GEO. L. MEAD,	} Commissioners for Belknap County.
